ACF-50®

ANTI CORROSION FORMULA

Active Corrosion Solutions

- Preventative Maintenance
- Detailing Service
- Vintage Restorations
- Off Season Riding
- Mud & Winter Racing
- Seasonal Storage

Protects • Penetrates • Lubricates

ACF-50 chemically treats metal using advanced polar bonding technology. If forms a “hydrophobic” film as it removes moisture from the metal surface. ACF-50 contains no water and is approved for electrical switches and connectors. ACF-50 has a strong capillary action so will creep into all the areas that moisture can; actively pushing out moisture and replacing it with protection. Where corrosion is already evident, ACF-50 will help inhibit further progress by insulating and electrically ‘switching off’ the corrosion cell.

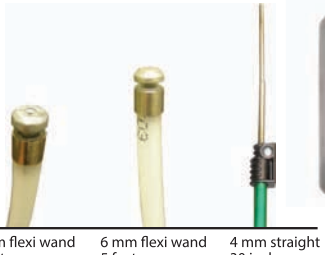
13 oz. Aerosol

Heads
Cooling Fins
Throttle Linkages
Brake Cables
Battery Terminals
Voltage Regulator
Suspension
Engine Components
Torsion Bars
Fuel Control Units
Fuse Box
Swingarm
Relays / Connectors
Undercarriage
Chrome
Chain
Ignition Switch
Security Systems / FOBs

32 oz. Bulk

4 L Bulk

20 L Bulk



Hand Held Spray System includes 3 application wands and bullet tip

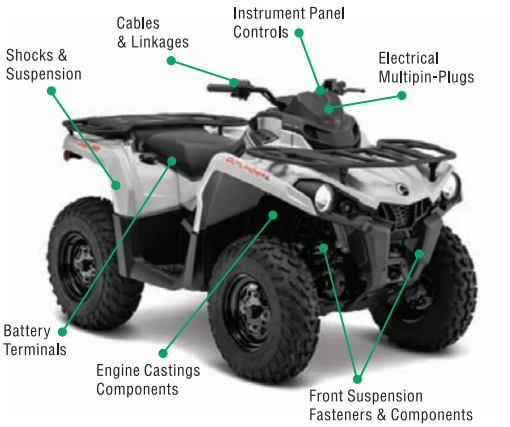
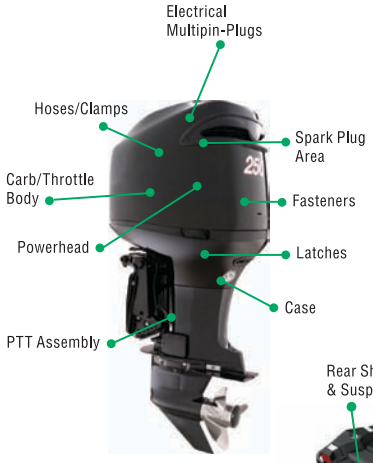
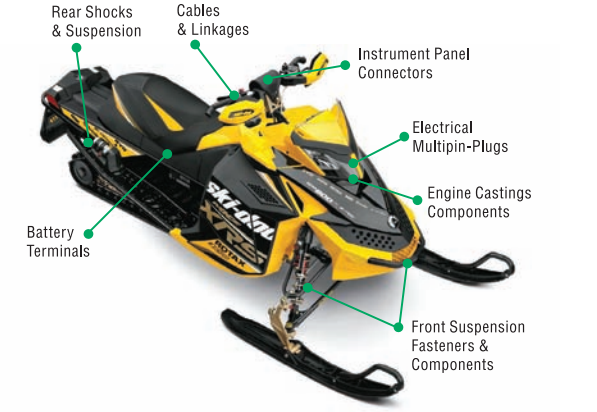
The Solution to the Ravages of Corrosion

Corrosion Block is a unique product that has the ability to both prevent and stop active corrosion in more places on Powersports Equipment than any other product of its type. Enthusiasts know that without prevention, corrosion is going to damage or destroy metal components and electrical systems.

All forms of corrosion affect unprotected steel and aluminium surfaces, as well as "all" electrical systems and components; pitting corrosion, galvanic, cracking, surface, inter granular, de-alloying, fretting and high temperature corrosion are present.







Kills Corrosion On Contact

Prevents New Corrosion From Forming
Extends Component Life
Prevents Corrosion Induced Failures
Protects metal components down to -70°F

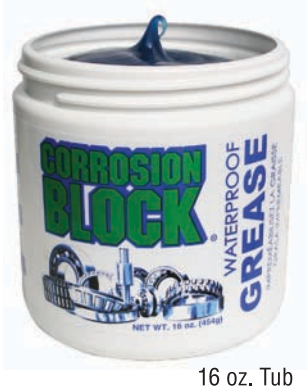
WATERPROOF GREASE

High Performance Multi-Purpose Won't Dry, or Wash Out

- **WATERPROOF**
- **Multi grease compatible**
- **Excellent extreme pressure (EP) properties**
- **Excellent thermal/oxidative stability**
- **Resists bleeding or melting at high temperatures**
- **Dielectric / non-conductive**
- **Workplace safe and environmentally friendly**
- **Out performs competitive grease 5:1**



16 oz. Tub

Also available in: 2oz. Tube • 3 & 14 oz. Cartridge
